SEASHORE TROLLEY MUSEUM

Kennebunkport, Maine

No. 1700, a "P" Class compartmented tram brought all the way from Australia, was built in 1926 by the Meadowbank Mfg. Co. Its unique arrangement of 8 compartments reflects English influence. Visitors to the museum, like those pictured here, can enjoy old-fashioned trolley rides daily during the summer season.

"World's Oldest and Largest Electric Railway Museum."
